

Brancaster Staithe Harbour Tides - JULY 2010

The tide starts to fill the harbour 3 hours before high water. Sailors usually have 2 hours before and 3 hours after high water to be afloat. Those wishing to visit Brancaster Beach should be aware that the access road will be covered from 1 hour before until 1 hour after high water when tides are higher than 8.4m. Strong Northerly winds can change the tidal height by up to 1/2 metre and up to an hour on predicted times.
