

## Brancaster Staithe Harbour Tides – November 2010

The tide starts to fill the harbour 3 hours before high water. Sailors usually have 2 hours before and 3 hours after high water to be afloat. Those wishing to visit Brancaster Beach should be aware that the access road will be covered from 1 hour before until 1 after hour high water when tides are higher than 8.4m. Strong Northerly winds can change the tidal height by up to ½ metre and up to an hour on predicted times.

Guests often ask about the vulnerability of our lower rooms. In order to be threatened by the tide it would need to be higher than 11.5m. Even during the 1953 floods the tide never reached 11.0m

		Morning		Afternoon	
		Time	Height (m)	Time	Height (m)
Monday	1 <sup>st</sup>	0025	7.2	1342	7.4
